Education

Bharati Vidyapeeth College of Engineering, Delhi

B.Tech - Instrumentation & Control Engineering (ICE)

Batch: 2024 - 2028

Skills

HTML, CSS, JavaScript (Basic), Node.js (Basic), Express.js (Basic), C Programming, Git & GitHub

Projects

1. Netflix Clone

- Tech Stack: HTML, CSS

- Built a responsive frontend clone of the Netflix homepage using clean layout and styling practices.

2. Salesforce Clone

- Tech Stack: HTML, CSS

- Developed a static UI resembling Salesforce's official site with emphasis on design and layout.

3. Faulty Calculator

- Tech Stack: HTML, JavaScript

- Created a simple calculator tailored for internal academic use, with basic arithmetic functions and user-friendly design.

Experience / Roles

Campus Ambassador - DevTown & Wayspire

- Promoted events, webinars, and tech communities on campus.

- Developed communication and community outreach skills.

Objective

Motivated and enthusiastic second-year engineering student seeking opportunities to grow through open-source contributions. Passionate about web development and learning through hands-on projects and collaboration.
